### Appendix A – Injury and Sequelae Codes (ICD-10-CA)

#### **What are ICD-10 and ICD-10-CA**

The *International Statistical Classification of Diseases and Related Health Problems - Tenth Revision (ICD-10)* is an international standard for reporting diseases, injuries, and causes of death developed by the *World Health Organization (WHO)*.

ICD-10-CA is an enhanced version of ICD-10 developed by CIHI and is the classification facilities to record problems, diagnoses, symptoms and other conditions necessitating contact with health care providers.

#### ***Where Can I Get a Complete List of ICD-10-CA Codes?***

Visit the CIHI website for more information.

[http://secure.cihi.ca/cihiweb/dispPage.jsp?cw\\_page=codingclass\\_e](http://secure.cihi.ca/cihiweb/dispPage.jsp?cw_page=codingclass_e)

Providers and software vendors can purchase products and publications related to coding directly from CIHI at [www.cihi.ca](http://www.cihi.ca), including:

- ICD-10-CA/CCI, 2006 (CD-ROM – Single user).
  - This product is similar to CD-ROM encyclopaedias. The infobase automatically indexes every word and users may find information quickly using the software's search engine.
- Code Title Tables 2006 (for use with ICD-10-CA/CCI).
  - The code title tables include all the valid diagnosis and intervention codes and their descriptions.

#### ***ICD-10-CA and HCAI***

HCAI will only recognize valid ICD-10-CA codes. In many cases it will be important for users of HCAI to learn how to use the HCAI search code utility to locate valid ICD-10-CA codes. Without valid ICD-10-CA codes, HCAI users will be unable to submit forms to automobile insurers.

### ***ICD-10-CA Code Structure***

ICD Base (mandatory)		ICD Sub-Category (Optional)
Position 1	Position 2-3	Position 4-6
Series	Category	Sub-Category

#### **Series (position 1)**

The **Series** code represents a broad category of disease, condition, injury, disorder, or symptom. Codes are grouped within a series based on:

- body system or anatomy (e.g. respiratory, circulatory)
- cause or etiology (e.g. injuries, infections)
- circumstances (e.g. pregnancy)

#### **Category (position 2-3)**

The **Category** code provides general details to describe the injury, disease, disorder, symptom or condition. The meaning of each position within Category Code varies from series to series.

#### **Sub-Category (position 4-6)**

The **Sub-Category** code provides specific details related to the injury, disease, disorder, symptom or condition. Generally, this level of detail is not required for automobile insurers.

### ***Most Significant Injury/Sequelae Code***

The most significant injury/sequelae code is the one code that identifies the problem, injury, diagnosis or condition directly related to the automobile accident which is or will be responsible for the greatest use of resources during the provision of care to the claimant. In a case of multiple injury, the most significant injury/sequelae is the injury requiring the most services. If no diagnosis was made, the main symptom, abnormal finding or problem should be selected as the most significant injury.

### Appendix A –Partial List of ICD-10-CA Codes

An asterisk(\*) in the AISI column indicates that the code is not an ICD-10-CA code and was inserted for AISI purposes.

Injury Group	ICD-10 Code	Description
Skin Wounds & Non-Extensive Burns	S00	Superficial injury of head
	S000	Superficial injury of scalp
	S007	Multiple superficial injuries of head
	S01	Open wound of head
	S010	Open wound of scalp
	S017	Multiple open wounds of head
