

Appendix B – Health Related Service and Intervention Codes

20030930	Initial Publication
20031014	Correct acupuncture codes
20061122	Addition of new mobilization (04) and manipulation (05) codes. Remove release code (01).
20071011	Update 2007 version
20071213	Corrections to Pick List

Appendix B – Health Related Services and Intervention Codes (CCI©¹)

What is CCI?

The *Canadian Classification of Health Interventions*, referred to as CCI, was developed by the *Canadian Institute for Health Information* (CIHI). It is a comprehensive list of codes for diagnostic, therapeutic, and support interventions.

Where Can I Get a Complete List of CCI Codes?

Visit the CIHI website for more information.

http://secure.cihi.ca/cihiweb/dispPage.jsp?cw_page=codingclass_e

A downloadable PDF is available on this website that will allow you to learn more about using CCI codes.

Providers and software vendors can purchase products and publications related to coding directly from CIHI at www.cihi.ca, including:

- ICD-10-CA/CCI, 2006 (CD-ROM – Single user).
 - This product is similar to CD-ROM encyclopaedias. The infobase automatically indexes every word and users may find information quickly using the software's search engine.
- Code Title Tables 2006 (for use with ICD-10-CA/CCI).
 - The code title tables include all the valid diagnosis and intervention codes and their descriptions.

CCI and HCAI

HCAI will only recognize valid CCI codes. In many cases it will be important for users of HCAI to learn how to use the HCAI search code utility to locate valid CCI codes. Without valid CCI codes, HCAI users will be unable to submit forms to automobile insurers.

What is a “Healthcare intervention”?

Therapeutic Intervention

A service performed for or on behalf of a client whose basic purpose is to improve health, alter the course of a disease or health condition, or to promote wellness. While a therapeutic

¹ © CCI - 2006 Canadian Institute for Health Information

intervention may contain a diagnostic component, the primary intent of the intervention is to alleviate or treat the underlying disease or health condition.

Diagnostic Intervention

A service performed for or on behalf of a client whose basic purpose is to assess the presence, absence or status of a disease process or health condition.

Other Intervention

Any other service that cannot be described as obstetrical (fetal), therapeutic or diagnostic but, nevertheless, contributes directly to improve a client's health, alters the course of a health condition or promotes wellness.

One of the key features of the classification is its provider and setting neutrality. The same codes are applicable regardless of whether a doctor, a nurse or a therapist performs the interventions, or whether the intervention is performed in a hospital, a clinic, a doctor's office or in the home.

The list in Appendix B represents a sub-set of CCI. The complete list of intervention codes used in Canada is available from CIHI. CCI is a copyright product of CIHI and may not be changed without their express permission. Providers should contact their associations for guidance with coding.

For the purposes of the *Automobile Insurance Standard Invoice (AISI)*, a number of non-CCI codes were developed in consultation with CIHI to complement the existing set of CCI codes. These AISI specific codes are noted with an asterisk (*) and are not part of CCI.

CCI Code Structure

CCI Base (mandatory)			CCI Qualifiers (Optional)	
Position 1	Position 2-3	Position 4-5	Position 6-7	Position 8-9
Section	Group	Intervention	Approach or Technique or Reason	Device or Method

Section (position 1)

The **Section Code** represents the **broad category** or type of intervention. It allows you to quickly differentiate between assessments, treatments (both physical and non-physical) and other healthcare services.

Section Code	Section Description
1	Therapeutic interventions(Physical/Physiological)
2	Diagnostic interventions (Assessments, Tests)
3	Diagnostic imaging
6	Therapeutic (Cognitive, Psychosocial, Sensory)
7	Other (Healthcare, Services, Support)

Group (position 2-3)

The **Group Code** indicates **what was affected**.

- For those interventions related to physical anatomy (Section Codes 1, 2, and 3), the group code represents the body region or body part affected.
- For cognitive, psychosocial, sensory interventions, and other health care services (Section Codes 6 and 7), the group code indicates the specific skill, sense, or activity involved in the intervention.

Some of the Group Codes for regularly used interventions are listed below for Section 1 (therapeutic interventions), Section 2 (diagnostic interventions) and Section 3 (diagnostic imaging interventions)

Group Code	Region Description
A	Brain and Spinal Cord
B	Nerves
D	Ear and Mastoid (Process)
E	Musculoskeletal Tissue of the Head, Nasal Cavity and Sinuses
F	Oral cavity and Pharynx
S	Musculoskeletal System: Spine, Trunk and Pelvis
	SA – Atlas & Axis
	SC – Spinal Vertebrae
	SE – Intervertebral Disc
	SF – Sacrum & Coccyx
	SG – Muscles of Back
	SH – Soft Tissues of Back
	SI – Sacroiliac Joint
	SJ - Back Not Elsewhere Classified (NEC)
	SK - Sternum
	SL – Ribs
	SM – Clavicle
	SN – Scapula
	SQ – Pelvis
	SW – Pubis
	SY – Muscles of Chest and Abdomen
	SZ – Soft Tissues of Chest and Abdomen
T	Shoulder and Arm (excluding hand and wrist)
	TA – Shoulder Joint
	TB – Acromioclavicular and Sternoclavicular Joints
	TC – Rotator Cuff
	TF – Muscles of Arm (around shoulder)
	TH – Tendons of Arm (around shoulder)
	TK – Humerus
	TM – Elbow Joint
	TQ – Muscles of Forearm (around elbow)
	TS – Tendons of Forearm (around elbow)
	TV – Radius and Ulna
	TX – Soft Tissue of Arm NEC
	TZ – Arm NEC
U	Hand and Wrist

	UB – Wrist Joint
	UC – Distal Radioulnar and Carpal Joints and Bones
	UF – Metacarpal Bones
	UG – Metacarpophalangeal Joint(s)
	UJ – Phalanx of Hand
	UK – Interphalangeal Joints of Hand
	UL – Joints of Fingers and Hand NEC
	US – Extensor Tendons of Fingers (excludes thumb)
	UT – Tendons of Fingers (excludes thumb)
	UU – Thumb (Pollicis Tendons)
	UV – Tendons of Wrist and Hand
	UY – Soft Tissue of Wrist and Hand
	UZ – Hand with Wrist
V	Hip and Leg
	VA – Hip Joint
	VC – Femur
	VD – Muscles of Hip and Thigh
	VE – Tendons of Hip and Thigh
	VG – Knee Joint
	VK – Meniscus of the Knee
	VL – Cruciate Ligaments of Knee
	VM – Collateral Ligaments of Knee
	VN – Cruciate with Collateral Ligaments
	VP - Patella
	VQ – Tibia and Fibula
	VR – Muscles of Lower Leg (around knee)
	VS – Tendons of Lower Leg (around knee)
	VX – Soft Tissues of Leg
	VZ – Leg NEC
W	Ankle and Foot
	WA – Ankle Joint
	WB – Foot Ligaments
	WE – Tarsal Bones and Intertarsal Joints (hindfoot, midfoot)
	WG - Foot
	WJ – Tarsometatarsal Joints, Metatarsal Bones and Metatarsophalangeal Joints
	WL – Phalanx of Foot
	WM – Interphalangeal Joints of Tow
	WT – Tendons of Ankle and Foot
	WW – Soft Tissues of Foot and Ankle
Y	Skin and Subcutaneous Tissue and Breast
Z	Total Body
	ZX – Multiple Body Sites
	ZZ – Total Body

For Section 6 codes, the following Group Codes apply:

Group Code	Region Description
AA	Mental health
DA	Interpersonal relationships
KA	Cognition and learning
LA	Communication
PA	Hearing
RA	Voice
TA	Sight and other senses NEC
VA	Motor functions

For Section 7 codes, the following Group Codes apply:

Group Code	Region Description
SC	Personal care
SE	Environmental
SF	Service
SJ	Support activity
SP	Promoting health and preventing disease

Intervention (position 4-5)

The **Intervention Code** indicates **what was done**. A unique set of intervention codes exists for each Section Code. These first 5 positions form the base CCI code and are mandatory.

For Section 1 (Therapeutic – physical, physiological), the following Intervention Codes apply:

Code	Description	Definition
02	Exercise	Assisting and supervising client in performing exercise for improvement of health or correction of a deformity. Passive, active, resistive. <ul style="list-style-type: none"> • range of motion exercise • conditioning exercise (e.g. aerobic) • aquatic exercise, hydrotherapy, pool therapy • postural exercise, balance training, • work hardening, work conditioning
03	Immobilization	Rendering a body part incapable of being moved, with or without traction or traction elevation <ul style="list-style-type: none"> • Application of external immobilization device • Application of splinting device [e.g. cervical collar, spinal corset] • traction (with or without suspension)
04	Mobilization	Moving a joint (or soft tissue) within the physiological range of motion <u>without</u> a high velocity thrust.
05	Manipulation	Moving a joint beyond the physiological range of motion <u>with</u> a high velocity thrust.

06	Hypothermy	Applying cold to the body or body part to produce a therapeutic effect <ul style="list-style-type: none"> • application of cold using cold device (e.g. cold pack, ice)
07	Hyperthermy	Applying heat to the body or body part to produce a therapeutic effect <ul style="list-style-type: none"> • application of heat using hot pack, moist heat, compress • sauna, whirlpool, hot/warm bath • ultrasound
09	Stimulation	Exciting or inducing to a physiological state or functional activity (electrostimulation). <ul style="list-style-type: none"> • Transcutaneous electrical nerve stimulation (TENS) or neuromuscular stimulation (EMS/FES), includes interferential, faradic or galvanic currents. • Ultrasound • Laser
10	Acupuncture	Inserting needles into specific exterior body locations to relieve pain, induce surgical anaesthesia and for other therapeutic purposes.
12	Therapy	The general treatment of condition, disease, or dysfunction to eradicate its cause, manage or reduce the symptoms, or alleviate other associated disabling conditions by using appropriate selected techniques. <ul style="list-style-type: none"> • Massage • Acupressure, therapeutic touch • Use of vibrating device

For Section 2 (Diagnostic), the following Intervention Codes apply:

Code	Description	Definition
02	Assessment (examination)	Involves evaluating a client's condition, problem, or functional status to establish a diagnosis and/or identify treatment or rehabilitation measures and/or monitor a client's response to an existing treatment/rehabilitation plan. Also includes, where applicable, ordering diagnostic investigations, reviewing results, prescribing medications and counselling patient. <ul style="list-style-type: none"> • Determination of mental status (2.AZ.02) • General physical examination (2.ZZ.02) • Assessment, language (2.GE.02)
08	Test	An examination or trial of function, production, or range of movement of a body part or system. <ul style="list-style-type: none"> • Range of motion, strength • Speech localization test • Psychological testing
24	Electrophysiological measurement	The study of the mechanisms of production of electrical phenomena. Involves measuring electrical activity in muscles at rest, following voluntary contractions and

		following electrical stimulation <ul style="list-style-type: none"> • Electromyography [EMG]
--	--	---

For Section 3 (Imaging), the following Intervention Codes apply:

Code	Description	Definition
10	X-ray	Display of an image developed from the capture of external ionizing radiation (e.g. x-ray) on photographic film or photoconductive plate. The number of views in a study are indicated by the Extent Attribute.

For Section 6 (Therapeutic – Cognitive, psychosocial, sensory) the following Intervention Codes apply:

Code	Description	Definition
07	Facilitation	Providing general supportive assistance to a client. <ul style="list-style-type: none"> • Assistance with community integration • Mediation of interpersonal relationships
10	Counselling (for a known condition)	Providing health advice to a client that identifies health problems (or risks), encourages a change of client attitude or behaviour in order to initiate a willingness to modify lifestyle or behaviour that will result in an elimination of the health problem (or risk).
30	Therapy	The general treatment of a condition, disease or dysfunction to eradicate its cause, manage or reduce the symptoms, or alleviate other associated disabling conditions by using appropriate selected techniques. <ul style="list-style-type: none"> • Behaviour using desensitization technique • Psychotherapy using active listening technique • Work Hardening
50	Training	Teaching new or different skills to assist a client in overcoming a functional problem (or impairment) that usually involves a complex learning process before those skills are acquired and integrated. <ul style="list-style-type: none"> • Teaching body positioning • Prosthetic training • Teaching language skills using phonetics • Training for memory (e.g. compensatory, restorative)

For Section 7 (Other – healthcare, services, support), the following Intervention Codes apply:

Code	Description	Definition
01	Assistance	The act of helping or aiding a client to perform a task of daily living. <ul style="list-style-type: none"> • Bathing a patient [client] • Portering patient • Assistance with feeding

10	Counselling (for a potential condition)	<p>Providing advice to a client that identifies health problems (or risks), encourages a change of client attitude or behaviour in order to initiate a willingness to modify lifestyle or behaviour that will result in an elimination of the health problem (or risk).</p> <ul style="list-style-type: none"> • Lifestyle counselling • Coping information and resources
12	Planning	<p>Preparing an outline of care, services, or activities that affect a specific client</p> <ul style="list-style-type: none"> • Planning, team conference • Programming
13	Preparation	<p>Initial services done to ready a client for an upcoming intervention. Includes processing a specimen, rehearsal or simulation of an intervention.</p> <ul style="list-style-type: none"> • File review in preparation for an Independent Medical Examination or DAC.
15	Brokerage	<p>The act of delegating, managing or monitoring services or care on behalf of a client.</p> <ul style="list-style-type: none"> • Case management • Patient referral
30	Documentation	<p>Written correspondence or completion of certificates or documents done on behalf of a client. Excludes patient record keeping which is considered part of the clinical care process.</p> <ul style="list-style-type: none"> • Correspondence • Certificate completion
59	Instruction	<p>Simple demonstration of a process (or task) and repetition of that task by the client in a supportive environment to assist the client in future self-care.</p> <ul style="list-style-type: none"> • Instruction towards self care to reduce health risk factors • Instruction toward self monitoring, self exam • Biofeedback
60	Education	<p>Information provided, normally in a structured format (e.g. lecture, seminar, classroom) to bring an audience to a better understanding of a health-related topic so that the quality of their lives (and future decision-making) may be improved</p> <ul style="list-style-type: none"> • Educating for health risks (e.g. disease process) • Listing available community healthcare resources • Other family members learning about a patient's condition
70	Precaution	<p>Personal care precautions may often be employed during episodes of acute infection, psychotic episodes, detoxification, autoimmune deficiency, allergic reaction, premature infant development, or any other health condition that requires special environmental (or personal) controls. Includes:</p> <ul style="list-style-type: none"> • area restriction • physical restraint • environmental adaptation (safe environment)

Approach/Technique/Reason (position 6-7)

The **Technique or Reason Code** indicates **how or why** the intervention was done. Generally, this level of detail is **not** required for automobile insurers.

Exceptions include the following:

- 7.SE.02.AB Assessment of environment (private living space, includes: Home assessment)
- 7.SE.02.AW Assessment of environment (workplace, includes: Ergonomic and Workplace assessments)
- 7.SJ.30.LB Documentation, support activity (for claim form)

Device/Method (position 8-9)

The **Device or Method Code** indicates **what was used**. This level of detail is not required for automobile insurers.

Attributes

In addition to the CCI code, healthcare services can be further specified with Attribute Codes. These codes are used to indicate how the service was delivered or the number of views in an X-ray study.

The absence of attribute codes means that a service was rendered directly (“in person”), to one individual by an individual provider, and required continuous attendance. Any exceptions to this must include the valid attribute code. Refer to tables below to determine which attribute codes apply to specific interventions.

For Section 1 only, the following additional Attribute Codes apply:

Code	Description
IA*	Intermittent Attendance

For Section 1, 6, and 7, the following Attribute Codes apply:

Code	Description
IN	Indirect (e.g. telephone)
SD	Self-directed (e.g. using tapes, videos)
IM	Individual with more than one provider
GR	Group with one provider
GS	Group with more than one provider

For Section 3, the following Attribute Codes apply:

Code	Description
A	2 or less views
B	3 to 4 views
C	5 to 6 views
D	More than 6 views

Appendix B – Examples of CCI Codes

Section 1 – Examples of Physical/Physiological Therapeutic Interventions

Physical/Physiological Therapeutic Intervention codes always start with a '1'.

		Total Body	Multiple Body Sites	Ankle Joint	Muscles of Head and Neck	Hip Joint	Shoulder Joint	Spinal Vertebrae	Wrist Joint	Attribute*
	Code	ZZ	ZX	WA	EP	VA	TA	SC	UB	
Exercise	02		1.ZX.02	1.WA.02		1.VA.02	1.TA.02	1.SC.02	1.UB.02	IM-Individual >1 provider GR-Group – 1 provider GS*-Group >1 provider
Immobilization	03	1.ZZ.03		1.WA.03		1.VA.03	1.TA.03	1.SC.03	1.UB.03	
Mobilization	04		1.ZX.04	1.WA.04	1.EP.04	1.VA.04	1.TA.04	1.SC.04	1.UB.04	
Manipulation	05		1.ZX.05	1.WA.05		1.VA.05	1.TA.05	1.SC.05	1.UB.05	
Hypothermy	06		1.ZX.06			1.VA.06	1.TA.06			IA*-Intermittent Attendance
Hyperthermy	07		1.ZX.07	1.WA.07		1.VA.07	1.TA.07		1.UB.07	IA*-Intermittent Attendance
Stimulation	09				1.EP.09					IA*-Intermittent Attendance
Acupuncture	10		1.ZX.10							
Therapy	12		1.ZX.12	1.WA.12		1.VA.12	1.TA.12	1.S1.12	1.UB.12	IA*-Intermittent Attendance

Notes:

Where there is no intervention code for a particular part of the anatomy, use the “Multiple Body Sites” codes. Examples:

Acupuncture for neck pain = 1.ZX.10

Ultrasound to shoulder joint = 1.ZX.12

Section 2 – Examples of Diagnostic Intervention Codes

Diagnostic Intervention codes always start with a '2'.

		Mental Health	Total Body	Ankle Joint	Muscles of Head and Neck	Hip Joint	Spinal Vertebrae	Shoulder Joint	Muscles of back	Wrist Joint
	Code	AZ	ZZ	WA	EP	VA	SC	TA	SG	UB
Assessment	02	2.AZ.02	2.ZZ.02							
Test	08	2.AZ.08	2.ZZ.08	2.WA.08	2.EP.08	2.VA.08	2.SC.08	2.TA.08	2.SG.08	2.U1.08
Evaluation	07	2.AZ.07								
Electro-physiological Measurement	24				2.EP.24				2.SG.24	
Other measurement NEC total body	29		2.ZZ.29							
Other diagnostic intervention NEC	94		2.ZZ.94							
Inspection	70			2.WA.70		2.VA.70		2.TA.70		2.UB.70
Function study	58									

Section 3 – Examples of Diagnostic Imaging Intervention Codes

Diagnostic Imaging Intervention codes always start with a '3'.

		Total Body	Ankle joint	Brain	Hip joint	Shoulder joint	Spinal Vertebrae	Wrist joint	Musculoskeletal System NEC	Attribute
	Code	ZZ	WA	AN	VA	TA	SC	UB	WZ	# of views
X-ray	10	3.ZZ.10	3.WA.10	3.AN.10	3.VA.10	3.TA.10	3.S1.10	3.UB.10	3.WZ.10	A (</=2) B (3-4) C (5-6) D (>6)
MRI	40	3.ZZ.40		3.AN.40			3.SC.40			
Computerized Tomography	20			3.AN.20			3.SC.20		3.WZ.20	
Diagnostic Nuclear Imaging	70	3.ZZ.70					3.SC.70		3.WZ.70	
Intervention NEC	94				3.VA.94					

Section 6 – Examples of Cognitive, Psychosocial and Sensory Therapeutic Intervention Codes

Cognitive, Psychosocial and Sensory Therapeutic Intervention codes always start with a '6'.

		Mental Health	Inter-personal Relations	Cognition and Learning	Communication	Hearing	Voice	Sight and Other Senses	Motor Function	Attribute
	Code	AA	DA	KA	LA	PA	RA	TA	VA	
Counselling (for a known condition)	10	6.AA.10	6.DA.10	6.KA.10	6.LA.10	6.PA.10	6.RA.10	6.TA.10	6.VA.10	IN-Indirect SD-Self-Directed IM-Individual >1 provider GR-Group – 1 provider GS*-Group >1 provider
Facilitation	07		6.DA.07	6.KA.07						
Therapy	30	6.AA.30	6.DA.30	6.KA.30			6.RA.30		6.VA.30	
Training	50		6.DA.50	6.KA.50	6.LA.50	6.PA.50	6.RA.50	6.TA.50	6.VA.50	

Section 7 – Examples of Other Healthcare Intervention Codes

Other Healthcare Intervention codes always start with a '7'.

		Personal Care	Environment	Service	Support Activity	Promote Health/ Prevent Disease	Attribute
	Code	SC	SE	SF	SJ	SP	
Assistance	01	7.SC.01					
Assessment (Home)	02.AB		7.SE.02.AB				
Assessment (Work)	02.AW		7.SE.02.AW				
Counselling (for a potential condition)	10					7.SP.10	IN-Indirect SD-Self-Directed IM-Individual >1 provider GR-Group – 1 provider GS*-Group >1 provider
Planning	12			7.SF.12			
Preparation	13			7.SF.13			
Brokerage	15			7.SF.15			
Documentation (Claims Form)	30.LB				7.SJ.30.LB		
Documentation (Other)	30				7.SJ.30		
Testimony (medicolegal)	34				7.SJ.34		
Instruction	59	7.SC.59				7.SP.59	IN-Indirect SD-Self-Directed
Education	60					7.SP.60	IM-Individual >1 provider GR-Group – 1 provider GS*-Group >1 provider

CCI Pick List: Note – this is not a complete list of health interventions. Refer to page 1 for instruction on how to locate a complete list of CCI codes.

CCI Codes Alphabetically	Code	Description
Acupuncture - involves the insertion of needles into specific exterior body locations to relieve pain, induce anaesthesia for physical (and psychological) therapeutic purposes	1ZX10	Acupuncture, multiple body sites
Advocacy	7SC05	Advocacy, personal care
Assessment - Involves evaluating a client's condition, problem or functional status to establish a diagnosis, and/or identify treatment or rehabilitation measures, and/or monitor a client's response to an existing treatment/rehabilitation plan. Also includes, where applicable, ordering diagnostic investigations, reviewing results, prescribing medications and counseling patient. Includes rehabilitative needs assessment, activities of daily living assessment, for use of assistive devices, for determining candidacy for treatment etc. Note: 2ZZ02 is the appropriate code for musculoskeletal assessment for rehabilitation purposes, regardless of anatomy.	2DZ02	Assessment (examination), ear
	2CZ02	Assessment (examination), eye
	2GE02	Assessment (examination), larynx
	2FK02	Assessment (examination), mouth
	2ZZ02	Assessment (examination), total body
	7SE02	Assessment, environment
	7SE02A B	Assessment, environment of private living space
	7SE02A W	Assessment, environment of workplace
	2AZ02	Assessment, mental health
Assistance - accompanying, client, ADL, self care, bathing (client) NOS, Feeding (client) NOS, Grooming (client) NOS, performing ADL for client, portering patient, positioning body (NOS)	7SC01	Assistance, personal care
Brokerage: Includes telephone advice, health advice, delegation of clinical support activities on client's behalf, determination of service needs, case management, monitoring of third party administered therapy, client referral. May involve initiating or maintaining a collaborative process to assess, plan, implement, coordinate, monitor and/or evaluate the options and services required to meet a client's health care needs. May involve initiating or maintaining a collaborative process to assess, plan, implement, coordinate, monitor and/or evaluate the options and services required to meet a client's health care needs. Includes advice, telephone, advisory, health, delegation of clinical support activities on client's behalf, determination of service needs, follow up, case management, monitoring third party administered therapy.	7SF15	Brokerage, service
Capacity Measurement (study) - includes spirometry, monitoring breathing, respiratory function study,	2GT21	Capacity measurement, lung
	2GZ21	Capacity measurement, respiratory system
Collection of Legal Evidence	7SJ35	Collection of legal evidence, support activity
Compression	1MR34	Compression, lymphatic vessels of arm
	1LZ34	Compression, circulatory system NEC
	1MS34	Compression, lymphatic vessels of leg
	1KR34	Compression, veins of leg NEC
CT	3AN20	Computerized tomography [CT], brain
	3EA20	Computerized tomography [CT], cranium
	3ER20	Computerized tomography [CT], head NEC

CCI Codes Alphabetically	Code	Description
	3VZ20	Computerized tomography [CT], leg NEC
	3GT20	Computerized tomography [CT], lung NEC
	3WZ20	Computerized tomography [CT], musculoskeletal system NEC
	3CA20	Computerized tomography [CT], orbit (of eye)
	3EY20	Computerized tomography [CT], paranasal sinuses
	3AF20	Computerized tomography [CT], pituitary region
	3SF20	Computerized tomography [CT], sacrum and coccyx
	3FY20	Computerized tomography [CT], soft tissue of neck
	3SC20	Computerized tomography [CT], spinal vertebrae
	3EL20	Computerized tomography [CT], temporomandibular joint [TMJ]
	3GY20	Computerized tomography [CT], thoracic cavity
Conduction Study - using needle electrodes percutaneously inserted; with repetitive stimulation by electrodes percutaneously inserted; Neuromuscular junction testing; using surface electrodes externally applied	2BR50	Conduction study, nerves of arm
	2BP50	Conduction study, nerves of hand
	2BB50	Conduction study, nerves of head and neck
	2BT50	Conduction study, nerves of lower leg
	2BX50	Conduction study, peripheral nerve(s) NEC
Counseling	6DA10	Counseling, interpersonal relationships
	6KA10	Counseling, cognition and learning
	6LA10	Counseling, communication (skills)
	6PA10	Counseling, hearing (loss)
	6AA10	Counseling, mental health
	6VA10	Counseling, motor function (impairment)
	7SP10	Counseling, promoting health and preventing disease
	6TA10	Counseling, sight or other sensory loss
6RA10	Counseling, voice	
Diagnostic Nuclear Imaging	3AW70	Diagnostic nuclear (imaging) study, spinal cord
	3SC70	Diagnostic nuclear (imaging) study, spinal vertebrae
	3AN70	Diagnostic nuclear (imaging) study, brain
	3WZ70	Diagnostic nuclear (imaging) study, musculoskeletal system NEC
	3ZZ70	Diagnostic nuclear (imaging) study, total body
Documentation	7SJ30	Documentation, support activity
	7SJ30L B	Documentation, support activity for claim form (e.g. for insurance, third party payor, workers compensation)
Dressing	1YA14	Dressing, scalp

CCI Codes Alphabetically	Code	Description
	1YZ14	Dressing, skin NEC
	1YS14	Dressing, skin of abdomen and trunk
	1YT14	Dressing, skin of arm
	1YR14	Dressing, skin of axillary region
	1YC14	Dressing, skin of ear
	1YF14	Dressing, skin of face
	1YW14	Dressing, skin of foot
	1YB14	Dressing, skin of forehead
	1YU14	Dressing, skin of hand
	1YV14	Dressing, skin of leg
	1YG14	Dressing, skin of neck
	1YD14	Dressing, skin of nose
	1YY14	Dressing, skin of surgically constructed sites
	1EQ14	Dressing, soft tissue of head and neck
	Education	7SP60
Evaluation/analysis Mental Health	2AZ07	Evaluation/analysis, mental health
Exercise	1WA02	Exercise, ankle joint
	1TZ02	Exercise, arm NEC
	1SJ02	Exercise, back NEC
	1TM02	Exercise, elbow joint
	1WG02	Exercise, foot
	1UZ02	Exercise, hand with wrist
	1VA02	Exercise, hip joint
	1UL02	Exercise, joints of fingers and hand NEC
	1VG02	Exercise, knee joint
	1VZ02	Exercise, leg NEC
	1ZX02	Exercise, multiple body sites
	1SY02	Exercise, muscles of the chest and abdomen
	1GZ02	Exercise, respiratory system NEC
	1SI02	Exercise, sacroiliac joint
	1TA02	Exercise, shoulder joint
	1SC02	Exercise, spinal vertebrae
	1EL02	Exercise, temporomandibular joint [TMJ]
	1UB02	Exercise, wrist joint
Facilitation - Involves assisting a client to overcome any obstacle, related to a health condition, by aiding the client to develop effective study habits and classroom behaviours by supporting the educational facility, with training and counseling, to ensure the client a safe and productive educational environment.	6KA07	Facilitation, cognition and learning
	6DA07	Facilitation, interpersonal relationships
Hyperthermy	1TB07	Hyperthermy, acromioclavicular and sternoclavicular joints
	1WA07	Hyperthermy, ankle joint
	1SJ07	Hyperthermy, back NEC
	1TM07	Hyperthermy, elbow joint

CCI Codes Alphabetically	Code	Description	
	1VA07	Hyperthermy, hip joint	
	1UK07	Hyperthermy, interphalangeal joints of hand	
	1WM07	Hyperthermy, interphalangeal joints of toe	
	1UL07	Hyperthermy, joints of fingers and hand NEC	
	1VG07	Hyperthermy, knee joint	
	1UG07	Hyperthermy, metacarpophalangeal joint(s)	
	1ZX07	Hyperthermy, multiple body sites	
	1YA07	Hyperthermy, scalp	
	1TA07	Hyperthermy, shoulder joint	
	1TX07	Hyperthermy, soft tissue of arm NEC	
	1VX07	Hyperthermy, soft tissue of leg	
	1SZ07	Hyperthermy, soft tissue of the chest and abdomen	
	1WV07	Hyperthermy, soft tissue of the foot and ankle	
	1UY07	Hyperthermy, soft tissue of the wrist and hand	
	1UB07	Hyperthermy, wrist joint	
	Hypothermy	1SJ06	Hypothermy, back NEC
1VA06		Hypothermy, hip joint	
1ZX06		Hypothermy, multiple body sites	
1TA06		Hypothermy, shoulder joint	
1TX06		Hypothermy, soft tissue of arm NEC	
1VX06		Hypothermy, soft tissue of leg	
1SZ06		Hypothermy, soft tissue of the chest and abdomen	
Imaging NEC	3ED94	Imaging intervention NEC, maxilla	
	3EL94	Imaging intervention NEC, temporomandibular joint [TMJ]	
	3TZ94	Imaging intervention NEC, arm NEC	
	3AN94	Imaging intervention NEC, brain	
	3EA94	Imaging intervention NEC, cranium NEC	
	3VC94	Imaging intervention NEC, femur	
	3WG94	Imaging intervention NEC, foot	
	3UZ94	Imaging intervention NEC, hand with wrist	
	3VA94	Imaging intervention NEC, hip joint	
	3VG94	Imaging intervention NEC, knee joint	
	3VZ94	Imaging intervention NEC, leg NEC	
	3EE94	Imaging intervention NEC, mandible	
	3EQ94	Imaging intervention NEC, soft tissue of head and neck	
	3AW94	Imaging intervention NEC, spinal cord	
	3VQ94	Imaging intervention NEC, tibia and fibula	
Immobilization (brace, cast, external fixator, splint, traction)	1WA03	Immobilization, ankle joint	

CCI Codes Alphabetically	Code	Description
etc..)	1SA03	Immobilization, atlas and axis
	1SM03	Immobilization, clavicle
	1TM03	Immobilization, elbow joint
	1VC03	Immobilization, femur
	1WG03	Immobilization, foot
	1HZ03	Immobilization, heart NEC
	1VA03	Immobilization, hip joint
	1TK03	Immobilization, humerus
	1UL03	Immobilization, joints of fingers and hand NEC
	1VG03	Immobilization, knee joint
	1EE03	Immobilization, mandible
	1ED03	Immobilization, maxilla
	1EF03	Immobilization, maxilla with mandible
	1ET03	Immobilization, nose
	1SQ03	Immobilization, pelvis
	1WL03	Immobilization, phalanx of foot
	1UJ03	Immobilization, phalanx of hand
	1TV03	Immobilization, radius and ulna
	1SL03	Immobilization, ribs
	1SN03	Immobilization, scapula
	1QG03	Immobilization, scrotum
	1TA03	Immobilization, shoulder joint
	1SC03	Immobilization, spinal vertebrae
	1VQ03	Immobilization, tibia and fibula
	1ZZ03	Immobilization, total body
	1UB03	Immobilization, wrist joint
	1EB03	Immobilization, zygoma
Inspection	2BB70	Inspection, nerves of head and neck
	2TB70	Inspection, acromioclavicular and sternoclavicular joints
	2WA70	Inspection, ankle joint
	2BA70	Inspection, cranial nerves (intracranial)
	2EA70	Inspection, cranium
	2TM70	Inspection, elbow joint
	2CZ70	Inspection, eye
	2WH70	Inspection, foot and toe joint
	2VA70	Inspection, hip joint
	2UL70	Inspection, joints of fingers and hand
	2VG70	Inspection, knee joint
	2GE70	Inspection, larynx
	2GT70	Inspection, lung
	2DL70	Inspection, mastoid (process)
	2GW70	Inspection, mediastinum
	2DK70	Inspection, middle ear
	2FA70	Inspection, nasopharynx

CCI Codes Alphabetically	Code	Description
	2BR70	Inspection, nerves of arm
	2BP70	Inspection, nerves of hand
	2BU70	Inspection, nerves of leg
	2BT70	Inspection, nerves of lower leg
	2BS70	Inspection, nerves of pelvis and hip and thigh
	2BD70	Inspection, nerves of the ear
	2BL70	Inspection, nerves of trunk
	2ET70	Inspection, nose
	2FX70	Inspection, oropharynx
	2BX70	Inspection, peripheral nerve(s) NEC
	2TC70	Inspection, rotator cuff
	2TA70	Inspection, shoulder joint
	2TX70	Inspection, soft tissue of arm
	2EQ70	Inspection, soft tissue of head and neck
	2VX70	Inspection, soft tissue of leg
	2CP70	Inspection, soft tissue of orbit and eyeball
	2SH70	Inspection, soft tissue of the back
	2SZ70	Inspection, soft tissue of the chest and abdomen
	2WV70	Inspection, soft tissue of the foot and ankle
	2UY70	Inspection, soft tissue of the wrist and hand
	2EL70	Inspection, temporomandibular joint [TMJ]
	2GJ70	Inspection, trachea
	2UB70	Inspection, wrist joint
Instruction - Involves providing client with sufficient instructional guidance enabling the performance of self care	7SC59	Instruction, personal care
Instruction - Includes instruction on: biofeedback, monitoring vital signs, self exam, reduce health risk factors	7SP59	Instruction, promoting health and preventing disease
Interpretation	7SF19	Interpretation, service
MRI	3TZ40	Magnetic resonance imaging [MRI], arm NEC
	3AN40	Magnetic resonance imaging [MRI], brain
	3ER40	Magnetic resonance imaging [MRI], head NEC
	3VZ40	Magnetic resonance imaging [MRI], leg NEC
	3SF40	Magnetic resonance imaging [MRI], sacrum and coccyx
	3FY40	Magnetic resonance imaging [MRI], soft tissue of neck
